- USB 2.0 port

Requirements for 2K HD video recording

- 3.6 GHz Intel® Core™2 Duo
- 8 GB RAM
- 2560 x 1440 HD screen resolution

Troubleshooting

Q: How to use the microphone of webcam?

- A:** 1. If your computer has a mic, the audio will use the default mic on your PC. Please manually switch to the microphone of webcam.
2. Try with other apps with video call function.

Q: How to set the webcam as the primary audio device of my computer?

- A:** 1. Select Control Panel – Audio, then select VAVA VA-VD020 as the default device for playing and recording.
2. Mac OS X: Select System Preference – Audio, then select VAVA VA-VD020 as the default device for audio input and output.
 3. In your app with video call function, check the audio settings and make sure you have enabled VAVA VA-VD020.

Q: Is the webcam applicable for smart TV?

- A:** Webcam is only applicable for PC, but it can be compatible for smart TVs which support UVC protocol, not for all smart TVs.

Q: What if the computer cannot detect the webcam?

- A:** 1. Try with other ports of your computer.
2. Make sure the webcam is not connected to USB concentrators or hubs.
 3. Try with another computer.
 4. Restart your computer and try again.

Safety Instructions

For Best Performance & Maintenance

- If the webcam becomes hot after running for a long time, stop using it for a period.
- Do not touch the lens with fingers, sharp or coarse materials; use a clean, soft cloth for cleaning.
- Do not use in hot, cold, dusty or humid locations.
- Avoid dropping the camera; impacts may cause damage to the lens, internal malfunction or scratches to the camera surfaces.

Warranty Service

- 18-Month Default Warranty
- Lifetime Technical Support
